INDEPENDENT AUDITORS' REPORT

To the Members of Trent Brands Limited

Report on the Ind AS Financial Statements

We have audited the accompanying financial statements of Trent Brands Limited ("the Company"), which comprise the balance sheet as at 31 March 2018, the statement of profit and loss (including other comprehensive income), the cash flow statement and the statement of changes in equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the state of affairs (financial position), profit or loss (financial performance), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

Registered Office:
308-309, Technopolis Knowledge Park, Mahakali Caves Road
Andheri (E), Mumbai - 400 093, India. T +91 (22) 6191 5555

Suresh Surana & Associates LLP
Chartered Accountants

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the state of affairs (financial position) of the Company as at 31 March 2018, and its profit (financial performance including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the Annexure "A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far, it appears from our examination of those books;
 - c) The balance sheet, the statement of profit and loss the cash flow statement and statement of changes in equity dealt with by this Report are in agreement with the books of account;
 - d) In our opinion, the aforesaid Ind AS financial statements comply with the Indian Accounting Standards prescribed under Section 133 of the Act;
 - e) On the basis of written representations received from the directors as on 31 March 2018 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2018, from being appointed as a director in terms of Section 164(2) of the Act;
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure B";
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

ANNEXURE 'B' TO THE INDEPENDENT AUDITORS' REPORT

(Referred to in paragraph 2(g) under the heading 'Report on Other Legal and Regulatory Requirements' of our report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Trent Brands Limited ("the Company") as of 31 March 2018 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by Institute of Chartered Accountants of India.

Note 19

Company information

Trent Brands Limited (The Company) is a public limited company domiciled in India and is incorporated under the provisions of the Indian Companies Act, 1956. The registered office of the company is located at 402, Ansal Bhawan 16 Kasturba Gandhi Marg, New Delhi 110001.
The Company is engaged in franchisee business through the property owned by it and leasing of unoccupied property.

19.1 Basis of preparation

The financial statements are prepared on the accrual basis of accounting and in accordance with the Indian Accounting Standards (Ind AS) notified under Companies (Indian Accounting Standards) Rules, 2015 and referred under Section 133 of the Companies Act, 2013.
The financial statements were authorised for issue in accordance with a resolution passed by the Board of Directors on 18th April, 2018.
These financial statements have been prepared on a historical cost basis, except for certain financial assets and liabilities measured at fair value or amortised cost (refer accounting policy regarding financial instruments).
The financial statements are presented in Indian rupees (INR) in Lakhs, which is also the Company's functional currency. All values are rounded off to the nearest INR Lakhs upto two decimals, except when otherwise indicated.

19.2 Summary of Significant accounting policies

a) Fair value measurement

The Company measures financial instrument at fair value at each balance sheet date.

Fair value is the price that would be received on sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 (if level 1 feed is not available/appropriate) — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 (if level 1 and 2 feed is not available/appropriate) — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

The Company's board/board committee approves the policies for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value, and for non-recurring measurement, such as assets held as part of discontinued operations. Where seen required/appropriate external valuers are involved. The board/board committee review the valuation results. This includes a discussion of the major assumptions used in the valuations.

b) Revenue recognition

Franchisee Commission

Franchisee Commission income is recognised on accrual basis (net of taxes, if any).

Interest income

Interest income is recognised on an accrual basis using effective interest rate (EIR) method.

Dividends

Dividend income is recognised when the Company's right to receive the payment is established.

Rental income

Rental income arising from operating leases is accounted for on a straight-line basis over the lease terms, except where escalation in rent is in line with expected general inflation.

c) Taxes on Income

Tax on income for the current period is determined on the basis of estimated taxable income and tax credits computed in accordance with the provisions of the relevant tax laws.

Current Tax

Current Income Tax relating to items recognised directly in equity is recognised in equity and not in the statement of Profit and loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the balance sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

In accordance with Para 35 of Ind AS 12 Deferred tax assets in respect of carryforward of unused tax losses or unused tax credit is recognised to the extent of available taxable temporary differences.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside the statement of profit and loss (consistent with applicable accounting standards) is recognised outside the statement of profit and loss. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current income tax liabilities.

d) Property, plant and equipment

All items of property, plant and equipment, including freehold land, are initially recorded at cost. Subsequent to initial recognition, property, plant and equipment other than freehold land are measured at cost less accumulated depreciation and any accumulated impairment losses. Freehold land has an unlimited useful life and therefore is not depreciated. The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

The cost of an item of property, plant and equipment is recognized as an asset if, and only if, it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

The cost includes the purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use, cost of replacing part of the property, plant and equipment and borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying property, plant and equipment. The accounting policy for borrowing costs is set out in note (g) below. All other repair and maintenance costs are recognized in the statement of profit or loss as incurred.

Depreciation on tangible assets is provided in accordance with IND AS 16 'Property, Plant and Equipment' with useful life as prescribed in Schedule II of the Companies Act, 2013 on written down value method.

Assets	Useful life in years
Building	60

An item of property, plant and equipment is de-recognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in Statement of profit and loss in the year the asset is de-recognized.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at the end of each reporting period and adjusted prospectively, if appropriate.

e) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

f) Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is (or contains) a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

A lease is classified at the inception date as a finance lease or an operating lease.

Lease arrangements where the risks and rewards incident to ownership of an asset substantially vest with the lessor are recognised as operating leases. Lease rents under operating leases are recognised in the Statement of Profit and Loss on straight line basis, except where escalation in rent is in line with expected general inflation.

Lease arrangements where lessee assumes substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalized at the lower of the fair value of the leased assets at inception and the present value of minimum lease payments. Lease payments are apportioned between the finance charge and the outstanding liability. The finance charge is allocated to periods during the lease term at a constant periodic rate of interest on the remaining balance of the liability.

g) Impairment of non-financial assets

The carrying value of assets / cash generating units at each Balance Sheet date are reviewed for impairment. If any indication of impairment exists, the recoverable amount of such assets is estimated and impairment is recognised, if the carrying amount of these assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. When there is indication that an impairment loss recognised for an asset in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognised in the Statement of Profit & Loss.

h) Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain the amount of the receivable can be measured reliably. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

i) Contingencies

A disclosure for contingent liability is made when there is possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made.

j) Employee benefits

The Company participates in various employee benefit plans. Pensions and other post-employment benefits are classified as either defined contribution plans or defined benefit plans. Under defined contribution plan, the Company's only obligation is to pay a fixed amount. Under a defined benefit plan, it is the Company's obligation to provide agreed benefits to the employees. The present value of the defined benefit obligations is calculated by an independent actuary using the projected unit credit method. The Company has the following employee benefit plans:

- (i) Contribution to Provident fund ,family pension fund,ESIC ,labour welfare fund and superannuation fund:
(a) Company's contributions during the year towards Government administered Provident Fund, Family Pension Fund, ESIC and Labour Welfare Fund are charged to the Profit and Loss statement as incurred.
(b) Company's contributions during the year towards Superannuation to the Superannuation Trust administered by a Life Insurance Company are recognized in the Profit and Loss statement as incurred.

(ii) Gratuity

In accordance with the Payment of Gratuity Act, 1972, applicable for Indian companies, the Company provides for a lump sum payment to eligible employees, at retirement or termination of employment based on the last drawn salary and years of employment with the Company. The gratuity fund is managed by the Life Insurance Corporation of India (LIC) . The Company's obligation in respect of the gratuity plan, which is a defined benefit plan, is provided for based on actuarial valuation using the projected unit credit method. The Company recognises actuarial gains and losses immediately in other comprehensive income, net of taxes.

(iii) Other retirement benefit

Provision for other retirement / post retirement benefits in the forms of pensions, medical benefits and long term compensated absences (leave encashment) is made on the basis of actuarial valuation.

k) Financial instruments

i)Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value (purchase value plus transaction costs that are attributable to the acquisition of the financial asset). Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortised cost
- Debt Instruments at fair value through other comprehensive income (FVTOCI)
- Debt Instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
- Equity Instruments measured at fair value through other comprehensive income FVTOCI

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- (a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- (b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, financial assets are subsequently measured at amortised cost using the EIR method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the Statement of Profit or Loss. The losses arising from impairment are recognised in the Statement of Profit or Loss.

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the Profit and Loss Statement.

Equity investments

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company decides to classify the same either as at FVTOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the other comprehensive income (OCI). There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

Derecognition

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expires or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets

The Company assesses at each reporting date whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated.

ii) Non-derivative financial liabilities

Financial liabilities are classified as either "financial liabilities at fair value through profit or loss" or "other financial liabilities".

(a) Financial liabilities are classified as "financial liabilities at fair value through profit or loss" if they are held for trading or if they are designated as financial liabilities at fair value through profit or loss. These are measured initially at fair value with subsequent changes recognized in profit or loss. Fair value is determined as per IND AS 113 'fair value measurement'.

(b) Other financial liabilities, including loans and borrowing, are initially measured at fair value, net of directly attributable transaction costs. Subsequent to initial recognition, these are measured at amortized cost using the EIR method.

Derecognition of financial liabilities:

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

l) Investment in subsidiaries:

Investment in subsidiaries are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investment in subsidiaries, the difference between net disposable proceeds and the carrying amounts are recognised in the statement of profit and loss.

Trent Brands Limited

Notes to the financial statements for the year ended 31st March, 2018

(All amounts in Rs. Lakhs, unless otherwise stated)

Note 20

Significant accounting judgements, estimates and assumptions

The preparation of the Company's standalone financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances existing when the financial statements were prepared. The estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates is recognised in the year in which the estimates are revised and in any future year affected.

In the process of applying the Company's accounting policies, management has made the following Judgements, estimates and assumptions which have significant effect on the amounts recognised in the financial statements:

Provision for doubtful advances and trade receivables: The company is not significantly exposed and the amount involved is not material therefore Company does not calculate any credit loss for trade receivables and advances to parties as required under IND AS 109 'Financial Instrument' however the company provides for doubtful advances and trade receivables based on its judgement about recoverability of amount.

Deferred Tax Assets

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Deferred tax assets in respect of carry forward of unused tax losses or unused tax credit have been recognised to the extent of available taxable temporary differences.

Defined benefit plans

The cost of the defined benefit gratuity plan and other post-employment medical benefits and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on publicly available mortality tables for the specific countries. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates for the respective countries.

Fair value measurement of financial Instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using appropriate valuation techniques. The inputs for these valuations are taken from observable sources where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of various inputs including liquidity risk, credit risk, volatility etc. Changes in assumptions/judgements about these factors could affect the reported fair value of financial instruments.

Note 21
Commitments and contingencies

Other Financial Liabilities		

Note 28

Financial risk management objectives and policies

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company's risk management policy is approved by the board/board's committee.

The Company's principal financial liabilities, other than derivatives, comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans, trade and other receivables, and cash and cash equivalents that derive directly from its operations and investment.

The Company is exposed to market risk, credit risk, liquidity risk etc. The Company's senior management oversees the management of these risks. The Company's senior management is overseen by the audit committee with respect to risks and facilitates appropriate financial risk governance framework for the Company. Financial risks are identified, measured and managed in accordance with the company's policies and risk objectives. All derivative activities for risk management purposes are carried out by specialist persons that have the appropriate skills, experience and supervision. It is the Company's policy that no trading in derivatives for speculative purposes may be undertaken. The Board of Directors reviews and agrees policies for managing key risks, which are summarised below.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, deposits, investments.

The company manages market risk through a treasury department, which evaluate and exercises control over the entire process of market risk management. The treasury department recommends risk management objectives and policies, which are approved by senior management and the Audit/Investment committee. The activities of this department include management of cash resources, implementing hedging strategies for foreign currency exposure, borrowing strategies, and ensuring compliance with market risk limit and policies.

The sensitivity analyses in the following sections relate to the position as at 31 March 2018 and 31st March 2017.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Interest rate change does not affect significantly short term borrowing and current investment accordingly currently Company's exposure to the risk of changes in market interest rates is not significant.

Foreign currency risk

The Company's does not have any foreign currency exposure.

Equity price risk

The Company has very limited equity investment other than investment in subsidiaries equity instrument therefore related exposure is not material for company.

Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The company is exposed to credit risk from its operating activities and from its financing activities, including deposits with banks, financial institutions and other parties and other financial instruments.

The Company adopts prudent criteria in its investment policy, the main objectives of which are to reduce the credit risk associated with investment products and the counterparty risk associated with financial institutions. The Company considers the solvency, liquidity, asset quality and management prudence of the counter parties, as well as the performance potential of the counter parties in stressed conditions. In relation to credit risk arising from commercial transactions, impairment losses are recognized for trade receivables when it is expected Company will not be able to recover all the outstanding amounts in accordance with the original contractual conditions of the receivables.

Liquidity risk

The Company's treasury department is responsible for liquidity, funding as well settlement management. In addition, the related policies and processes are overseen by senior management. Management monitors the company's net liquidity position through rolling forecast on the basis of expected cash flows. The table below summarises the maturity profile of the Company's financial assets and liabilities based on contractual undiscounted payments.

Year ended 31/3/2018	Rs. In Lakhs			Total
	<1 year	1 to 5 years	> 5 years	
Non Current Investment				
Current Investment			1,000.90	1,000.90
Cash and Cash Equivalents	471.85			471.85
Other Current Assets	7.51			7.51
	3.01			3.01

Year ended 31/3/2017	Rs. In Lakhs			Total
	<1 year	1 to 5 years	> 5 years	
Non Current Investment				
Current Investment			981.17	981.17
Cash and Cash Equivalents	205.67			205.67
Short term Loan and Advances	33.74			33.74
Other Current Assets	0.08			0.08
	3.01			3.01

Financial liabilities

Year ended 31/3/2018	Rs. In Lakhs			Total
	<1 year	1 to 5 years	> 5 years	
Borrowings (other than convertible preference shares):				
Trade and other payables	178.79			178.79
Other Financial Liabilities	1.39			1.39
	180.19			180.19

Year ended 31/3/2017	Rs. In Lakhs			Total
	<1 year	1 to 5 years	> 5 years	
Borrowings (other than convertible preference shares):				
Trade and other payables	118.98			118.98
Other Financial Liabilities	0.90			0.90
	119.88			119.88

Excessive risk concentration

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Company's performance to developments affecting a particular industry or given set of counter parties. In order to avoid excessive concentrations of risk, the Company's policies and procedures include specific guidelines to focus on the maintenance of a reasonably diversified portfolio. Identified concentrations of credit risks are controlled and managed accordingly.

Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, equity portion of convertible preference shares, share premium and all other equity reserves attributable to the equity holders of the company. The primary objectives of the Company's capital management is to maximise the shareholder value while providing stable capital structure that facilitate considered risk taking and pursued of business growth. The Company manages its capital structure and makes adjustments in light of changes in economic conditions and business opportunities. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, raise/ pay down debt or issue new shares.

Note 29

Consolidated Financial Statement

The Company holds 89.89 % equity shares in Flora services Ltd. Accordingly the Company is required to prepare consolidated financials statements.

However the Company has complied the conditions mentioned in Rules 6 of Companies (Accounts) Amendments Rules 2016. Trent Ltd ,holding Company, Consolidates Flora service Ltd (subsidiary of Company) in its consolidated financial statement. Accordingly the Company has not prepared consolidated financial statements.

Note 30

The standards issued, but not yet effective upto the date of issuance of the Company's financial statements is disclosed below. The Company intends to adopt this standard when it becomes effective.

Ind AS 115 Revenue from Contracts with Customers

Ind AS 115 was issued in February 2015 and establishes a five-step model to account for revenue arising from contracts with customer. Under Ind AS 115 revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The new revenue standard will supersede all current revenue recognition requirements under Ind AS. This standard will come into force from accounting period commencing on or after 1st April 2018.

Ind AS 116 Leases

Ind AS 116 introduces single leases accounting module and requires recognition of assets and liabilities for all type of lease with a term of more than 12 months, unless the underlying assets is of low value. The new revenue standard will supersede existing Ind AS 17 "Leases". This standard will come into force from accounting period commencing on or after 1st April 2019.

The Company is in the process of analysing the impact of the proposed standards.

Note 31

Previous year figures have been regrouped / reclassified wherever necessary.
